Dear Mr. Feller:

The afternoon of July 2, 1998, Cheryl Martinez contacted Bill Weber by telephone and explained to him that your Notice cannot be accepted until previous disturbed areas are reclaimed. Later, Russ Feller called and was told the same information as Bill Weber.

On June 15 and 17, 1998 we received additional information that we requested by letter on August 26, 1997, for your Notice on your Glacial Green # 1 claim in T. 13 N., R. 13 W., Section 8 (UMC 361374).

Your Notice cannot be accepted until the following is completed:

Our 43 CFR 3809.1-3 (a) regulations state that prior to conducting additional operations under a subsequent notice covering substantially the same ground, the operator shall have completed reclamation of operations which were conducted under any previous notice.

The concurrent operator, Utah Building Stone Supply, operates in most of section 8, T. 13 N., R. 13 W., Bureau of Land Management file U-72287. Therefore, additional time is needed to inventory all disturbed areas within Section 8. The disturbed acreage inventory is needed to determine reclamation responsibility by you and Utah Building Stone Supply. We estimate the inventory to be done by August 1, 1998.

We will consider your Notice, once reclamation work is completed for unnecessary disturbances related to your mining activity.

Thank you for your cooperation. If you have any questions, or require additional information, please feel free to contact Cheryl Martinez of my staff at (801) 977-4371.

Sincerely,

/s/ Margaret Wyatt
